TRADE REALITIES VISUALS PACK

This graphics pack is drawn from Katalyst Initiative's **Working Paper 3: Trade Realities: Using Trade Data to Strengthen the Design of Supply Chain Governance** - both the main report and the annex.

Trade unions, NGOs, researchers, students and other civil society organisations are welcome to use these graphics in presentations, publications, social media, etc.

The graphics in this pack are licensed under a [CC BY-NC-SA 4.0 license](https://creativecommons.org/licenses/by-nc-sa/4.0/). You may share and adapt the materials in this paper for non-commercial use, provided that Katalyst Initiative is credited. For more details, please follow the link. © 2023 Katalyst Initiative.

We hope other organisations find these graphics to be useful, and would appreciate receiving copies of materials that use them, so we that we can improve the usefulness of future research products.

About Katalyst Initiative

Katalyst Initiative was founded by veterans of the business & human rights civil society network. The aim is to help civil society – trade unions, NGOs, academics and activists – and government policymakers to develop new forms of human rights governance in supply chains, using the garment industry as a model. Katalyst also sees close links between the root causes of human rights violations and environmental and climate risks, and aims to support closer ties between the human rights and environmental communities.
